Community Sale Tuesday, March 14

Remember Crossfield's Annual Community Sale is to be held on Tuesday of next week. More entries than ever have been received and the coming sale promises to be the largest ever held here. Local merchants are also offering special bargains for this day. Don't miss it folks.

Mixed Bonspiel Concluded

The Crossfield Curling Club's mixed bonspiel which wound up on Friday night was a most successful one. Following are the winners:

Grand Challenge—1st. Mrs. Miller; 2nd. Mrs. Heywood, 3rd. Miss K. Mair; 4th. Mrs. Stevens.

Final:
H. McCool, Dr. McClelland, W. H. Miller, Mrs. W. Miller, skip, 12
Mrs. I. P. Metheral, L. Overby, J. R. Gilchrist, Mrs. A. Heywood, skip, 6

Consolation—1st. Mrs. Nichol; 2nd. Mrs. McClelland. It took 13 ends to decide the winner in this event. Mrs. Amery skipped the winning rink owing to the absence of Mrs. Nichol.

Final:
L. Becker, R. J. Hendry, Rev. Young, Mrs. R. Nichol, skip, 12
Mrs. Kurstörfer, R. Nichol, Carl Becker, Mrs. McClelland, skip, 11

St. Patrick's Tea March 17th.

The United Church Ladies Aid are holding a St. Patrick's tea and sale of home cooking on Friday, March 17th at the home of Mrs. Young.

Calico Dance, March 17

Keep in mind the U.F.W.A. St. Patrick's Calico Dance in East Community Hall on March 17th. Prizes for best calico dresses. Music by the Melody Boys.

We are told that George Jones has gone into the sheep business and is now looking for a shepherd, as he is expecting some lambs from Mary's little lamb.

The regular meeting of the U. F. W. A. was held at the home of Mrs. Wilson Stafford on Wednesday afternoon. A solo by Mrs. A. Montgomery and a duet by Mrs. H. T. Stewart and Miss Alma Stewart, were greatly appreciated by those present.

Prize lists for the annual Spring Show, which will be held on March 29 to April 1st at the arena, Victoria Park, Calgary, have been issued, and despite the fact that the list of awards has been cut slightly, there is every indication that a record entry list will be received.

I SAW: Verne Thompson trying to run his car home from the East Community hall on water he had mistaken for gas. Geo. Ainscough enjoying his first smoke when he took on a large cigar at the wedding dance on Wednesday night.

Two rinks from the Crossfield Curling Club will play at the North Hill Curling Club, Calgary, tonight.

Comparative Statement of Administration Costs of Municipalities for the Year 1932

Below is a comparative statement of a number of Municipal Districts, which should be of interest to the ratepayers of the M. D. of Crossfield. We tried to secure this information before the annual meeting, but it is impossible to obtain the different financial statements until after that date.

District	No.	Sec.-Treas. Assessor Assistant	Council Fees	Total
BEDDINGTON	250	\$3410.00	\$960.50	\$4370.50
NORQUAY	279	\$174.85	\$105.30	\$280.15
PARKLAND	456	\$709.00	\$1001.30	\$1710.30
BLACKFOOT	218	\$2549.43	\$716.80	\$3266.23
MOUNTAIN VIEW	310	\$274.98	\$1156.70	\$1431.68
HAYS	338	\$2190.00	\$1177.20	\$3367.20
CARBON	278	\$2305.00	\$550.30	\$2855.30
GRASSWOLD	248	\$2205.00	\$245.05	\$2450.05
CORONATION	334	\$2000.00	\$991.60	\$2991.60
BOW VALLEY	219	\$2189.73	\$759.30	\$2949.03
SHEPARD	220	\$4599.96	\$1322.00	\$5921.96
KEOMA	249	\$1000.00	\$1086.70	\$2086.70
ROSEBUD	280	\$1718.82	\$242.32	\$1961.14
SHEEP CREEK	190	\$1285.00	\$678.00	\$1963.00
BEAVER DAM	281	\$2009.30	\$772.40	\$2781.70
ARTHUR	340	\$2400.00	\$913.50	\$3313.50

The Provincial Budget

The high lights of the budget, which was introduced into the House on Friday, are as follows:
Reduction in expenditures of \$1,701,000.00.

Estimated surplus \$9,700.00.

Gas tax increase 1 cent, bringing it in line with other provinces and still lower than some.

An adjustment in auto licenses to be announced later.

No new taxes.

Edmonton Normal School to close in spring.

One month's reduction in school grants.

Vernon Agricultural School to be closed in June.

No grants this year to School Fairs.

All research work discontinued.

Agricultural Agents laid off 3 months in winter.

Further reduction in Civil Servants and Ministers salaries.

Maintenance of Main Highways reduced \$250,000.00.

No new highway construction.

All departments considerably reduced.

The Government has exercised great care in keeping its estimates within the capacity of the people to pay, and on the whole the budget will be accepted with little argument. Whether the heavy cuts in the maintenance of the main highways are wise is open to question, but the people of the province will hope for the best.

Lady Curlers Visit Calgary

The lady curlers visited the North Hill Curling Club at Calgary on Tuesday afternoon, playing four games, winning two and losing two. Mrs. McMillan, Mrs. Williams, Mrs. Stevens, Mrs. Amery, skip, Mrs. Fike, Miss K. Mair, Mrs. Wood, Mrs. Miller, skip.

The locals were royally entertained by the Calgary ladies.

Newly Weds Entertained

Mrs. Geo. Jones and Mrs. Orvil Bills entertained jointly at the home of the latter on Monday evening in honor of Mr. and Mrs. John English at a kitchen shower and card party. Winners at 500 hundred were: Ladies' first, Mrs. C. C. Stafford; gent's first, Verne Thompson; consolation prizes going to Mrs. Thompson, sr. and Wm. Davidson.

Large Crowd at Wedding Dance

Mr. and Mrs. O. E. Jones entertained at a wedding dance in the East Community hall on Wednesday night in honor of the newlyweds, Mr. and Mrs. J. English. A crowd of over 200 attended and a grand time was had. At midnight a very dainty lunch was served, following which cigars, cigarettes and candies were passed round. Dancing was kept up until four a.m. when a tired but happy crowd wended their way home.

Welcome Announcements.

The recent statement by Premier Bennett in the House of Commons in which he outlined the attitude of himself and his Government on the subject of reciprocal trade relations with the United States, and in which he declared that the United States was Canada's natural market, constitutes, not only an announcement of great interest and importance, but it has the effect of removing, at least so far as the principle involved is concerned, this particular phase of the tariff question from the realm of partisan politics. Differences of opinion as to details of any such trade arrangement may exist or develop between the two great political parties in this country, but so far as the question of the desirability of such an arrangement, it has now been quite plain that there is no difference of opinion.

To all those who feel that the important question of the tariff should, as far as possible, be removed from the arena of partisan political controversy, this unanimity of view will be most gratifying, as well as a most hopeful sign that at no distant date a marked improvement in the trade relations of these two great countries, having so many things in common, and divided only by an imaginary boundary line, will be effected.

Premier Bennett made his momentous announcement when speaking to a resolution moved by a Liberal member, and which was worded as follows: "That, in the opinion of this House, it is expedient that the Government of Canada re-open negotiations with the Government of the United States of America with a view of bringing about a satisfactory reciprocal trade agreement between Canada and the United States whereby the natural products of Canada, that is the produce of the soil, the farm, the mine, and the forests, and including fish, lumber, wheat, cattle, etc., should have free entry into the United States in exchange for the admission of certain goods from the United States of America, which in the interests of both countries may be admitted into Canada, free from customs tariffs."

Almost equal in its importance to Premier Bennett's statement, is the announcement contained in press despatches that the new Administration at Washington, under the guidance of President Roosevelt, proposes to make overtures to the Canadian Government looking to the negotiation of such a trade agreement or treaty, if, indeed, such overtures have not already been tentatively made.

Canadians generally will welcome these new developments, and nowhere will they be received with greater goodwill, and with sincere hopes that success will attend such negotiations, than in the provinces of Western Canada. Unquestionably, the continent of North America is one economic unit, however it may be divided politically and nationally. Nature made it so geographically and climatically.

The United States can supply Canada with many things we do not, and cannot, produce for ourselves—cotton, tropical and semi-tropical fruits, antirachic coal, many articles of manufacture, to mention only a few items. On the other hand, the United States stands in need of enormous quantities of other natural products which Canada can supply in abundance. Why, then, should both countries erect barriers against the natural exchange of such commodities to the disadvantage of both?

Here in Western Canada we can raise tens of thousands of head of range cattle, but we are handicapped in finishing them for market, including the British market, and are at a distinct disadvantage in competing with the Argentine. But the United States raises enormous quantities of corn for feeding purposes. What is more natural than that Western Canada should ship thousands upon thousands of stocker cattle to the corn states to the south to be fattened for market? Both countries would profit thereby.

Why should the Maritime Provinces be forced to look for markets long distances inland in Ontario and Quebec, even in the West, with the rich markets of the great cities along the U.S. Atlantic seaboard right at hand and easily and cheaply reached by water transportation? Why should Ontario, lacking coal supplies of its own, be denied free and cheap access to the great coalfields immediately to the south but in the United States? Why should other country cripple the natural flow of trade north and south, fighting geography in an uneconomical fashion, while striving for markets thousands of miles away?

Is it now admitted, almost universally, that the troubles which today beset the world are almost entirely of our own making, the result of our own blindness and stupidity, and not the fault of an all-wise Providence nor the breakdown of the immutable laws of Nature?

Canada and the United States have set the world an object lesson for more than one hundred years of an undefended boundary line thousands of miles in extent. We have shown the nations of the world how international relations should be conducted so as to avoid all physical warfare. Can we not show the world, in its present time of distress, how international economic relations should be governed so as to avoid economic warfare?

Assuredly we can, if we will. And it is because we should do so that these announcements of the past few weeks are so welcome, so promising of great betterment for the peoples of both countries. And to us in Canada especially welcome as indicating a unity of desire and policy on the part of all our political parties in the advancement of the common good and economic welfare of this Dominion.

Canada's Shoe Industry

One of the Canadian industries to show increased production in 1932 was the leather boot and shoe factories. A corresponding decline in exports is shown in the following table: In 1932 Canadian factories produced 17,879,218 pairs, while imports totalled only 345,965 pairs.

Great Britain has the highest taxation; France comes second and Germany third.

A \$4,250,000 paper mill is being built at Ellesmere, England.

Headaches and Dizzy Spells
Nerves in Bad Condition

Mr. Neil Crawford, Hamilton, Ont., writes: "My nerves were in such bad condition I found it almost impossible to get a good night's sleep. I was also bothered with headaches and dizzy spells."

I tried many different remedies, but they did not seem to give me much relief, but after I had taken Milburn's Heart and Nerve Pills I could hardly believe the change they had made in my condition."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Electric Eye Records
Activity Of Housewife

Information Obtained By U.S. Bureau Of Home Economics

For each member of her family, the average housewife makes 18 trips a day to the kitchen sink, according to a February issue of the American Journal of Home Economics.

Each time she goes to the sink, the article shows, she spends, on an average, one minute.

Thus, the housemaker in a family of five will average 90 trips daily to the sink and will work there for an hour and a half.

A photo-electric eye was used to help record every trip made, together with the time spent at the sink. The U.S. Bureau of Home Economics was asked to make this study by the chairman of the committee on kitchens of the president's conference on home building and home ownership, and it received outside co-operation.

An analysis of the study shows that the Washington, D.C., housewives in whose kitchens the photo-electric eye was placed, spent from 38 to 152 minutes at the sink each day, while the number of trips varied from 32 to 217. The reasons for such variations, according to the article, can be determined only by more detailed studies. The definite factual data hitherto unavailable in such studies should make possible more definite conclusions as to the comparative efficiency of different types of kitchen arrangement. Dr. Stanley says.

Rich Gold Strike

New South African Field Opens Up Great Possibilities

Another great gold strike—possibly equal to past rushes which helped end former depressions—was described to the American Institute of mining and metallurgical engineers.

One-eighth of the world's present gold production is the estimate, though not yet proven, acquisition of this new field, the Consolidated Goldfields, South Africa. This dazzling estimate was reported by F. W. Lee, supervising engineer, geophysical supervising engineer, geophysical section, United States Bureau of Mines, Washington.

It caps several weeks of reports in inside circles of New York engineers that the new South African field might produce enough gold to start the ball rolling toward world prosperity.

Lee told the story of how the new scientific "diving rod," the magnetometer, located the ore.

"The greatest outstanding achievement of the year," said Mr. Lee, "was made by the engineers in the Consolidated goldfields. Here the outcrop of the main reef series was traced from Middelburg through properties of the Westward area, a distance of from 30 to 40 miles."

Long Gas Line

Proposed To Build Gas Line From Alberta To The Coast

The findings of the Alberta conservation commission is expected to have a bearing upon the plans of oil syndicates to construct a pipe line from the coast to supply the cities of Vancouver in British Columbia, and of Spokane, Seattle and Tacoma in the state of Washington, with natural gas, it was stated by William C. Fisher, of Calgary.

"This is not a visionary project," said Mr. Fisher. "The findings of the conservation commission will determine the extent of the gas pressure in the Turner Valley area."

"If it is proved that the field can guarantee a 20-year supply, there should be nothing to hinder the proposed gas pipeline to the coast for the supply of cheap natural gas."

Catalogues Human Diseases

Retina Of Eye Affected By Any Abnormal Condition

Practically every disease common to man, says Dr. Clarence R. Ellis, of the Ohio State University applied optics department, can be diagnosed by an examination of the retina of the eye.

Any abnormal condition, he explained, affects the retina immediately—particularly such diseases as brain tumors, heart trouble, cancer and inflammation of the liver.

The chief cause of eye trouble, he added, is the use of too powerful light bulbs in reading lamps.

Canada's acreage in field crops increased from 15.6 million in 1930 to nearly 58 million in 1931, or by approximately 272 per cent.

Ninety per cent of the world's clothing is made of cotton.

People of Denmark are against the idea of using silver in coins.

Robe Proved Good Mascot

Gift Of Maori Chief Treasured By British Admiral

Admiral Sir Lionel Halsey, controller and treasurer to the Prince of Wales, told the Author's Club in London, England, of a New Zealand "kiwi" robe which he wore whenever he fought in action during the Great War.

The garment, a kind of kilt made of flax, was given to him by a Maori chief when he was in command of the battle cruiser "New Zealand." The "New Zealand" went on a cruise to the dominion. One chief, after being shown over the ship, gave him the "kiwi" robe and asked him to promise that whenever he took the ship into action he would wear it. He told him that it had been worn by his forebears in war, but that it would never be required in that country again.

On August 28, 1914, when the action of Heligoland was fought, Sir Lionel said he wore the robe in the conning tower, and he added that the "New Zealand" never received a scratch during the fighting.

After this the garment was looked upon as a mascot. On Jan. 24, 1915, the "New Zealand" fought the German ship "Blucher," which was sunk. Again he wore the "kiwi" with the same result, the "New Zealand" receiving no damage whatever.

In May, 1915, he left the "New Zealand" to Captain, later Admiral, Sir John Green. He handed over the "kiwi" to his successor and in the Battle of Jutland Captain Green wore it when he took the ship into action. Two ships in his own line were blown up and sunk, but the "New Zealand" received practically no damage whatever. After the war, Sir Lionel, the garment, was returned to him and it was one of his most treasured possessions.

Another Use For Radio

Fever Machine Is Newest Treatment For Certain Diseases

A "fever machine," which treats disease by the power of radio waves to raise the temperature of the body was described before the American College of Physicians at Montreal.

It is a new application of radio, treating disease instead of sending messages, and was reported by Dr. Walter M. Simpson of Dayton, Ohio. The machine is used in treating diseases that are sometimes cured and often improved by producing artificial "fevers" in the body. Among these diseases are general paresis, a form of paralysis that attacks many insane persons, some forms of arthritis, a disease of the joints, and diseases that affect the bodily extremities—arms and legs, feet and hands.

The fever machine is a short-wave radio transmitter, which "broadcasts" 30-meter radio waves through the patient from large metal plates.

Orient Buying Wheat

Shipments From Canada This Season Total 8,814,011 Bushels

Steadily increasing demand in the Orient for wheat is instanced by the fact that Canada has shipped 8,814,011 bushels to China and Japan so far this season. This is 677,413 bushels greater than consignments at this time last year, and it is believed final figures will exceed last year's mark by more than a million bushels.

Bookings up to the end of March for the Orient are 366,666 bushels. Only the lower grades are wanted, and Australia, near at hand, has been getting the lion's share of the business.

A Mark Twain Story

When Mark Twain was a young and struggling newspaper writer a lady of his acquaintance saw him one day looking at a shop window, with a cigar box under his arm. "Mr. Clemens," she said, "I always see you with a cigar box under your arm, I am afraid you are smoking too much." "No," said Twain, "I am not smoking. I'm moving again!"

A machine in the coast and geodetic survey office at Washington, D.C., can predict the tide for any place in the world, at any hour, for centuries to come.

CHEST COLDS—

MECCA OINTMENT AND MUSTARD POUCE

Relieves Coughs
Do Not Use Blister
At first place of a cold on the chest apply a Mecca Poultice with the addition of mustard. Rub gently with your fingers. The poultice will give quick relief. Full directions in each package.

EDWARDSBURG

CROWN BRAND
CORN SYRUP

A pure, wholesome, and economical table Syrup. Children love its delicious flavor.

THE CANADA STARCH CO. LIMITED, MONTREAL

Art Competition

Manitoba and Quebec Student Architects Win Awards

Manitoba and Quebec student architects won awards in the Royal Architectural Institute of Canada competitions, result of which were announced recently.

Leonce Desgagne, Ecole Des Beaux-Arts, Quebec, won first prize in the class "A" project, in which 13 designs were submitted, and Eric Thrift, University of Manitoba, was awarded first prize in class "B" project. Forty-nine designs were submitted for the latter class.

Maurice Germain, Ecole Des Beaux-Arts, Montreal, won second in class "A" project; G. R. White, University of Toronto, was third, and William Sheets, University of Manitoba, received honorable mention.

In class "B" Lowell Wallace, University of Manitoba, was second, and M. M. Green, University of Toronto, third. The University of Alberta had one design entered in the class "A" project and eight in class "B" but won no prize.

The jury of award consisted of: H. L. Featherstonhaugh, Montreal; Irene Vautrin, Montreal; Wilfrid Leacock, Quebec; John M. Lyle, Toronto, and H. J. Burden, Toronto.

Aviator Was Popular

Took Fresh Vegetables To Arctic

Miner In Severe Weather
Leigh Brinnett, president of MacKenzie Airways Service, Limited, was the most popular man in the Great Bear Lake mineral fields on New Year's Day.

With the thermometer hovering at 60 below the zero, Mr. Brinnett swooped down with a load of 500 pounds of fresh vegetables from Edmonton for mining men at the Eldorado holdings.

After a diet of canned goods and meat for several weeks the vegetables of Mr. Brinnett were welcome addition to the larder of the hardy winterbound miners.

The Edmonton pilot's boast is that he made the long flight from Edmonton to Great Bear Lake, under most severe weather conditions without having a single drop of lettuce or as much as a tomato frozen. A special heating device, designed by Brinnett, was installed in the cabin of his machine.

Stratosphere Plane

Prof. Picard Believes He Can Build a Plane That Will Cruise Upper Spaces At High Speed

Prof. August Picard, explorer of spaces 10 miles above the earth, is convinced he can build an airplane capable of flying through the stratosphere at 500 miles an hour.

The statement came in answer to a question by Dr. John Carruthers, secretary of the Los Angeles University of International Relations, as to whether the Swiss scientist thought he could construct such a plane if he were furnished \$500,000 for the purpose.

"I believe I could do so within a year and a half," he said. "And in my opinion the stratosphere plane is a thing of the not very distant future."

Professor Picard laid August announced at an altitude of 10,455 miles in a special balloon to obtain experimental data on cosmic rays.

Canadian Egg Inspection

In 1931 the Egg Grading Service of the Department of Agriculture inspected 769,919 cases of eggs. In addition to the regular work of inspection by approval, the inspection staff makes approximately 40,000 calls annually on wholesale and retail dealers throughout the country. This is for the purpose of checking up on outgoing shipments of deliveries, the purchase of current receipts from producers, country store-keepers and jobbers, and giving instructions and direction in candling and grading in accordance with the Canadian Standards.

A patent for a medical compound is obtained only in rare instances in the United States.

The Jig-Saw Puzzle

Demand In The United States Still Ahead Of Supply

Americans bought jig-saw puzzles to the amount of \$10,000,000 in 1932, an increase of 70 per cent. over 1931. More than 2,000,000 persons purchased interlocking jig-saw puzzles that require real skill. More than 15,000,000 solved the simpler cut-out puzzles, stamped, not sawed. This growth in the puzzle craze has given impetus to more than 20,000.

The enthusiasm for home entertainment has been reflected in a 20 to 50 per cent. increase in sales of all parlor games, tops, horse races sets, roulette, table tennis, bee bees and dart games.

Although several hundred manufacturers have entered the cut-out puzzle field in the last few months, demand is still ahead of the market.

The release of the cheaper puzzles has educated a vast new army of puzzle addicts who graduate to more difficult varieties. Manufacturers estimate that the jig-saw puzzles have been increased 30 per cent. in intricacy to meet the new vogue. Some puzzles have as many as 1,800 pieces.

Old fashioned designs featuring Colossal costumes, hunting scenes, copies of famous paintings, etc., still are the most popular, although there is a vogue for comics.

Proposes Revised Dollar

Professor Leacock Suggests Reducing Gold Content To Seventeen Grains

Proposal to re-establish the redeemable gold standard with a dollar of 17 grains of gold instead of the present 23 was made by Prof. Stephen Leacock, head of McGill University's political economy department, in a speech before the Empire Club at Toronto.

He claimed, would cause immediate rise in prices and stimulate production of all sorts. "The gold from the Canadian mines," he explained, "would be taken as the basis of a paper currency redeemable in gold at 17 grains to the dollar. The \$60,000,000 now produced annually would represent \$80,000,000 in the new dollar and could be used to carry \$240,000,000 worth of paper. Of this, one-third would pay the mine owners."

Immunity From Plagues

Better Sanitation and Public Health Legislation Stamp Out Disease

One of the most important of all developments in the last 32 years has been in sanitation and public health, affecting the lives of everybody. It is not so far back when towns and cities had well water, generally polluted with its accompaniment of typhoid fever outbreaks. There were also diphtheria epidemics while smallpox was not at all unknown in virulent form in many communities. Immunity has been won from these three plagues to mankind.—St. Catharines Standard.

Appliance For Railroads

Any sudden depression in a railway track is instantly detected and marked on a chart while the train is passing over it by a new appliance designed by an Australian inventor. It does away with the need of a daily inspection of the line.

In the Famous Green Box

MONTREAL, CANADA

World Trade Of Britain Continues To Expand, Despite Existing Conditions

Undeterred by adverse world conditions and by the prolonged period of difficulty through which it has passed, industrial Britain goes steadily ahead receiving and filling orders for foreign account, often in the face of severe competition from other nations, and thus continuing to build up Britain's reputation as a centre for the production of superior manufactured articles in widespread demand.

Of decided interest to Canadians is the announcement made by representatives of the Welsh tinplate trade of a record order from the American Can Company, operating works in Montreal and Vancouver, for a million boxes of tinplate valued at \$700,000. The firm receiving this order controls 20 tinplate works in South Wales, in addition to six iron and steel plants, and already the effects of the contract are being reflected in increased activity in local industrial circles.

A Manchester plant has recently completed a contract for eight heavy mixed-traffic locomotives for service on the Chinese Government Railways and the locomotives, fully erected, have been shipped in a vessel specially equipped for such consignments. Locomotives of this description have been supplied to China by United States firms in the past.

Four oil-electric locomotives, the largest yet produced in Europe, are about to be shipped from the Armstrong, Whitworth works near Newcastle-on-Tyne to South America for use on the Buenos Aires Great Southern Railway.

Two engineering firms are reported to have jointly secured a contract for gasoline storage tanks which are to be erected at Haifa, Palestine, for the Iraq Petroleum Company. The contract, Industrial Britain reports, is worth \$160,000 and was secured in the face of world-wide competition.

From Durham county comes word of the receipt of orders from Czechoslovakia and Holland for coal-cleaning equipment representing a total value of more than \$40,000.

Orders from Persia for textile machinery to the value of \$40,000 have been received by Lancashire firms. These orders follow the announcement that the Shah of Persia has given instructions that the machinery for a number of spinning and weaving mills that are being established in that country must be ordered from Great Britain.

Another big contract has been placed by the Russian trade agency with a Manchester firm for a railway axle plant which is to be installed by the Soviet Government with an annual output of 270,000 axles. The same firm has recently completed a large Russian machine tools order, and the latest one was obtained in the face of severe competition from Germany.

A Bolton concern of machine-tool makers reports the successful conclusion of negotiations with Canadian buyers for various types of tools formerly purchased from the United States. The order, it is stated, runs into thousands of pounds in value.

Thus, in hard times as well as in good times, the British industrialist goes steadily forward capturing orders for the provision of machinery or other articles to foreign countries, notwithstanding severe competition from other nations. His business surmounts tariff and other barriers and the world continues to be his market. That he is enabled to receive his due share of foreign orders is principally due to the quality of his output, for it is universally recognized that British goods are satisfactory goods and in spite of great temptations, the British industrialist has consistently declined to put an inferior article on the market.

Those who are accustomed to argue that Britain is dead industrially and otherwise fail to take into account the energy with which the British manufacturer continues to seek an outlet for his goods and the market which these goods continue to command, on account of their inherent quality, in spite of world conditions in world trade.

Could Say Plenty

"Did you ever have the telephone ring when you were in the bathtub and there was nobody at home?" "Oh, yes," replied the family man. "What did you do?" "Well, I play a little golf, and I have also made a few remarks to a flat tire, so draw your own conclusions."

Rice Growers Face Rain

Empire Agreements Have Destroyed Trade For British Guiana

About 150,000 of the inhabitants of British Guiana are faced with ruin as a result of the Empire trade agreements reached at Ottawa, according to advices received at Port of Spain, Trinidad, giving the views of the Demerara Rice Marketing Board. Guiana formerly had a preference for its rice in the British market, but under the Ottawa agreements India gets the same rates and has been driving out Guiana rice. An appeal has been made to London for protection of the former market, but the authorities have been informed that no discrimination can be made. About half the population of Guiana is dependent on rice growing.

Street Purposes Have Changed

New Planning Necessary Opinion Of President Of British Architects

London hears a novel analysis of modern street traffic problems by Sir Raymond Unwin. The president of the Royal Institute of British Architects says street purposes have entirely changed. We run what are practically locomotives at locomotive speed on highways meant for horses and pedestrians. A complete new planning must come. It will expedite traffic through streets on which are no shops, and will assure safety of adults and children on foot. The pedestrians will move leisurely in parallel streets which will have shops but no motor traffic—Christian Science Monitor.

Winnipeg Newspaper Union

By Ruth Rogers

457
A TAILORED JUMPER OF SPRING-
GREEN TWEED WITH A SHEER
FRESH YELLOW DIMITY
BLOUSE

Doesn't it all sound charming? The caplet collar is finished with a tiny frill with green piping edge. The tiny ruffling appears again on the cuffs. Pin tucks are decorative at the front of the blouse.

This cute rig can also be made with short sleeves as in small back view. For frankly hot weather wear, the sleeves can be omitted from the jumps. You will note the cape collar just turns the shoulder, which gives a very pretty effect.

Batiste prints, linen, seersucker and dimity are nice mediums. Besides cottons, wool crepe and wool jersey can be used for the jumps with a tubular guimpe.

Style No. 457 is designed for sizes 4, 6 and 8 years. Size 4 requires 1½ yards 35-inch, with 1 yard 35-inch for blouse. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Need Paid Hunters

To Protect Game In Northern Manitoba From Timber Wolves

With timber wolves increasing in numbers and few pelts being brought into The Pas for bounties, northern Manitobans say that the only way to save the game in the Moose Lake country, will be by means of at least two paid hunters. It is learned at The Pas, Manitoba, that only 54 timber wolf pelts were brought there for bounty last year. This does not represent the total number killed, of course, as some pelts go right through to the cities. But the number of wolves killed was small in proportion to the wolf population.

Tom Lamb, Moose Lake trader, has found a number of deer cut down by wolves and left to rot. On a recent trip, he found a beautiful animal that had been killed by wolves. It had been chewed slightly at the throat. Lamb marked the spot intending to bring the deer to The Pas, where he intended to place it on exhibition. On returning a couple of days later, he found the passing Indians had taken part of it for dog feed.

Bring Low Prices

Portraits Of Earl Of Egmont's Family Are Auctioned In London, England

Nearly 50 of the Alberta rancher Earl of Egmont's family portraits were sold recently at Christie's famous auction parlors in London, England.

Two years ago when some of the old masters belonging to the estate were sold, a Reynolds' portrait alone fetched 3,000 guineas (about \$15,000 at par). Today 50 portraits realized a total of little more than a tenth of that sum.

Works of such half-forgotten painters as Lely, Kneller, Hudson, Hobday and Joseph were put up in one lot, bringing about a pound each. Four portraits by Slater, including one of Spencer Percival, the murdered premier, brought only 12 guineas. Others followed at an average price of 12 guineas a dozen.

Returns Interest

Woman Refuses To Accept Interest On Government Bonds

If all holders of Canadian government bonds were of the same disposition as Mrs. J. J. Richardson of St. Catharines, Ont., the lot of the minister of finance would be much happier. Mrs. Richardson, in a letter dated February 23, not only announced her refusal to accept any interest on her government bonds, but returned to the department \$82.50, being the amount she received over a period of 15 years on a 5½ per cent. Victory bond which was redeemed in 1932, for the face value, \$100.

"It is against my sense of justice to use money to make money, or to charge usury for money loaned to any person," Mrs. Richardson wrote.

Rapid Growth Of Insanity

Psychology Professor Claims Canada and U.S. Lead World

Canada and the United States in equal per capita, are leading the world in numbers of insane, according to Very Rev. Canon Charles Verhejen, professor of psychology and psychiatry at the State University of Amsterdam, Holland, who sailed from Saint John after completing an independent study of psychiatry cases in North America, during which he was attached to the Church of Our Lady of Victory in Saskatoon for two months.

"The rapid growth of insanity is due to a large extent from the depression with its resultant financial worries and the like," said the eminent scientist. "The fast life of this country and the United States is also one of the main causes. Young girls are not heeding the demands of health. They stay up late at night. Get little sleep and rush off to the office headless of breakfast. It just can't be done."

Honor Madame Albani

Marble Bust Of Famous Prima Dolina For Quebec Provincial Museum

A marble bust of Madame Albani, famed prima donna of the opera at the turn of the century and one of the greatest artists French Canada has given to the world, has been offered to the province of Quebec by her son, Ernest G. Albani, in London, England, through L. J. Lemieux, Quebec's commissioner there. The bust is the work of Prince Hohenlohe and will be placed in the provincial museum at Quebec. It was announced by Premier L. A. Taschereau, who called his thanks to Madame Albani's son. Madame Albani was born in Chambly, Quebec, near Montreal, in 1847, and died March 3, 1930. She was invited to sing before many European courts following her operatic debut in Messina in 1870.

Ask Federal Assistance

Need Aid In Maintaining Medical and Hospital Care In Saskatchewan

Federal assistance in maintaining necessary medical and hospital care for the people of Saskatchewan was urged at Saskatoon at a special session of the Saskatchewan Medical Association. Fifty doctors from districts all over the province attended.

A resolution was passed calling for "the joining of hands on the part of medical services, hospital services and the Rural Municipities Association in a proposal to the legislature of Saskatchewan for further consideration from federal sources, through the medium of the department of national health, to assistance in, maintaining necessary medical and hospital attention throughout the province."

Tobacco exported from Cuba in a recent month was valued at \$1,139,637.

ROYAL COMMISSION TO ENQUIRE INTO NEWFOUNDLAND'S FUTURE

Above are the three members of the Royal Commission appointed to report on the economic situation in Britain's oldest colony, Newfoundland. Left to right, Hon. C. A. Magrath, Canada, Lord Amhurst, Great Britain, and Sir William Staveley, Canada.

Celestial Phenomena Will Present Many Points Of Interest To Star Gazers This Year

A Wesley Letter

Great Preacher Gave Counsel On the Subject Of Marriage

A letter from John Wesley to a correspondent who had apparently asked the great preacher for counsel on the subject of marriage was sold at Sotheby's in London, England, for \$125.

The letter is addressed to "Mr. Peter Garforth, at Skipton-in-Craven, Yorkshire," and its contents are as follows:

"My dear brother: A person with all the qualifications you mention is not every day to be met with. I do not recollect such a one at present. If I meet with or think of one I will send you word. I advise you not by any means to entangle yourself with a predestinarian. A sensible, well-tempered woman, fearing God though not much awakened, is far preferable. Wishing you may have light from God in that and all things, I am, your affectionate brother, J. Wesley."

Encouraged Flower Farming

Prince Of Wales Helped Miners In Duchy Of Cornwall

The Prince of Wales has been obliged to cancel his proposed visit to the Isles of Scilly. Had he been able to keep the engagement his arrival in the Isles would have been synchronized with the height of the flower season, and he would have seen the great strides made by those engaged in the bulb industry. The output is greater than ever before. Consignments for market number as many as 5,000 boxes of flowers a day. At the time when the distress among unemployed miners in the Duchy of Cornwall was at its worst, and alternative employment was being sought, the Prince showed practical interest in their predicament by placing at the disposal of several families holdings in the Duchy and by supplying the necessary implements and bulbs to enable them to take up flower farming.

A Custom Of The Sea

British Ships Blow Whistle When Passing Island Near Queensland

Whenever a British ship steaming along the coast of Queensland passes between a certain island and the mainland, she blows a prolonged blast on her siren. The story begins years ago, when a young Englishman engaged on exploration work in that locality had a narrow escape from losing his life. He was rescued just in the nick of time by a native girl, who, to save his life, had to swim with him across half a mile of shark-infested water. The young man married the girl, and they settled on the island. Then, one night, a British vessel was wrecked there, and it was only through heroic efforts by the man that all lives were not lost. He has since died, but the wife and family still live upon the island, and it is to show them that the brave act is still remembered that every British ship sounds its whistle as it passes.

Raising Status Of Ice-man

Increased dignity for ice-men in California has been decreed by some companies. They have declared that their employees must be called "ice attendants." They must dress in white uniforms with brass buttons and carry the ice in stout black waterproof satchels.

A bore is one who has nothing to say and keeps on saying it.

The sky schedule for 1933 will be of great interest to star gazers according to the American Nature Association.

Six periodic comets are due for return engagements. Two eclipses of the sun are on the schedule also. Then too, Mars, which is probably of more popular interest than any other planet because of its possibilities as an abode of life and its fascinating and varied surface markings which indicate seasonal changes, came to perihelion on March 1.

Perihelion is that point of the orbit of a planet or comet which is nearest to the sun. This is one of the less favorable oppositions, since the planet is 62,700,000 miles distant from the earth at nearest approach on that date.

Nevertheless astronomers interested in the physical phenomena of the planets are keeping this little neighboring world under scrutiny for some weeks, and we may expect to hear more than usual about the ruddy planet Mars within the next few months.

The comets returning are Biesta, Pons-Winnecke, De Vico-Swift, Giacobini, Finlay and Holmes. The first was last seen in 1879 and is due to come to perihelion again in November.

The Pons-Winnecke comet has a period of nearly six years and was discovered in 1810. It is due to return again in May.

Giacobini's comet was discovered by that astronomer at Nice in 1900. It is due at perihelion in June. Finlay's comet is also due in June. Holmes' comet was discovered in 1892. It is due in August.

There will be two eclipses of the sun, both annular. An annular eclipse is one in which the relative positions of sun and moon are such that the moon falls completely to cover the solar disk and there is a thin annulus or ring of light surrounding the dark lunar disk at the time that would correspond to mid-totally of a solar eclipse.

The first eclipse occurred on Feb. 24. The partial phase was visible in the southern and central part of South America, all of Africa, except the extreme northwestern part, the western part of the Mediterranean, Greece, Asia Minor, Persia and Arabia.

The next eclipse will occur on Aug. 21. The partial phase will be visible in central and eastern Europe and northeastern Africa at sunrise, later in the morning, or near mid-day, in Siberia, central and southern Asia, and in the afternoon in the Philippines and East India.

Status Of The Metis

Government Spokesman Says Half-Breeds Not Wards Of Dominion

Half-breeds are not wards of the Dominion Government, said Hon. T. G. Murphy, head of the Department of Indian Affairs. Half-breeds were citizens of the provinces in which they lived, he said, with the same rights and responsibilities as the whites. Their care was a provincial matter.

In the Alberta House it was stated that half-breeds in that province were impoverished. Premier J. R. Brownlee said it had not been decided whether the Dominion or provincial administration was responsible for the care of the half-breeds. It might be necessary for the courts to decide.

The pure-bred Indians are wards of the Dominion Government. They have not the rights of the white citizens. The Dominion Government is responsible that they do not suffer want.

Australia Using Own Currency

A train of ten cars loaded with English silver coins from all parts of South Africa will be sent to the mint in Pretoria within a few weeks. The shipment will be the result of the decision of the Union of South Africa to use its own currency.

The total to be withdrawn is estimated to be the equivalent of \$6,250,000, but the intrinsic value of the silver is less than \$2,000,000. The total number of coins to be withdrawn is between 15,000,000 and 20,000,000.

Auto Exports Increase

Increased sale of Canadian automobiles abroad is the brightest spot noted in the February business summary issued by the Bank of Montreal. Greater sales were attained throughout the whole of 1932 and January's figures reveal expansion of the foreign market is continuing.

UNITED ACTION IS NEEDED TO SAVE COUNTRY

Ottawa.—Recovery from economic stagnation can come only from unity of action and unity of action could be made possible, or at least hastened, by a National government, Sir Arthur Currie, principal of McGill University, Montreal, said at a gathering of McGill Ottawa Valley graduates.

"All our scattered forces must be combined to lead us out of the morass of doubt and even despair," said Sir Arthur. "It is extremely doubtful, in my judgment, if our desired objective can be reached by a politically divided country."

"Unity of all, for the good of all, would seem to be our surest and safest guiding force. We had to meet a national emergency 16 years ago. We met it with unity. In that troublesome time all party prejudices, badges and slogans were forgotten or submerged and as a people we moved forward in one solid front to victory, not otherwise could we have found success."

The present situation was more perplexing and serious than that of 1917, said the distinguished soldier and educator. It was time prejudices, badges and slogans were forgotten in a united effort to move toward prosperity, security and stability.

"There is stagnant industry," he said, "tottering business, distress, despair, all urgently demanding redress. And redress can come only from unity of action which can be made possible, or at least hastened, I believe, by a national government, representative of all the forces and all the thought of the country."

"The establishment of such a power would mean sacrifices, a spirit of give and take, a measure of temporary compromise. But in the end, I believe, by a national government, representative of all the forces and all the thought of the country, the political weaknesses have been the fact we are all interested in voting for or against something, rather than for or against something."

No criticism of any party, group or policy was to be implied from his views, Sir Arthur stated. The times called for strength and national distress pointed to a common objective, rehabilitation. Surely men of ordinarily divergent views could agree on the need of immediate action.

If the depression continued there was a danger of all sorts of quick remedies being accepted and applied through ignorance and hysteria, he went on. Canada had emerged from one food's paradise and would be careful not to grope her way into another "following a will-of-the-wisp guide."

Bill Goes To Senate

Federal House Passes Measure Extending Ten Per Cent Salary Cut

Ottawa, Ont.—The bill to extend the civil service salary reduction for another year passed all stages of the House of Commons and was sent to the senate. The measure continues the 10 per cent. reduction in the salaries of civil servants and members of parliament until the end of the fiscal year 1933-34.

About 60,000 people would be affected by the 10 per cent. salary reduction, Hon. E. N. Rhodes, minister of finance, said. In addition to 13,000 casual employees and postmasters of small centres operating on a commission basis, the following public servants would be affected:

Salaries below \$1,200—18,408.
Salaries between \$1,200-\$2,000—22,745.
Salaries between \$2,001-\$3,000—6,123.
Salaries between \$3,001-\$4,000—1,379.
Salaries between \$4,001-\$5,000—461.
Salaries over \$5,000—215.

Royalty Sees First Talkie

London, Eng.—The king and queen have seen their first talking movie and apparently enjoyed it. It was the premiere of the screen version of J. B. Priestley's "The Good Companions" shown as a benefit for the unemployment relief fund. The performance was declared a great success, the proceeds totalling about \$40,000.

Predicts U.S.-Jap War

Richmond, Va.—Asserting that the United States and Japan inevitably will meet in a future war, General William Mitchell, former chief of America's army air service, recommended the mobilization of air power in Alaska.

Indian Goes Modern

Now Taking His Place In Affairs Beside the White Man

Ottawa, Ont.—The Indian has gone modern, entering professions, graduating from universities and taking his place beside the white man in business and high finance. Hon. T. G. Murphy, Minister of the Interior, told the House of Commons today. But the Indian retains all his williness and adroitness—he often refuses to become a nationalized Canadian, subject to legal action and taxes. The Indian, as the ward of the Dominion pays no taxes, has no vote, cannot be sued in a civil court and "is cute enough to want to stay that way."

That was the reason, said Mr. Murphy, why the government sought power to compel Indians to be franchised—so they would assume the responsibilities as well as the privileges of citizenship.

For the entire sitting the House discussed the Indian and his problems. Liberals objecting to the compulsory enfranchisement provisions of the government legislation.

Premier R. B. Bennett finally poured oil on the troubled waters by saying a change would be made in the system of enfranchisement—a board consisting of a representative of the Indian tribe, a representative of the Indian Department at Ottawa and a county court judge, would be established to review each application.

Studying Income Tax Law

Government Seeks Workable System To Cover Bearer Bonds

Ottawa, Ont.—The quest for a workable system of enforcing the income tax upon income derived from bearer bonds continues.

The proposal to apply a flat rate of four per cent. on all interest coupons presented to the banks for payment has lost ground heavily in the past few days. It is claimed that to adopt such a policy would be to invite wealthy citizens with liquid assets to invest these assets in bearer bonds and reduce their income tax rate to four per cent.

Another proposition has now been put forward which, it is understood, is meeting with a more favorable reception by the cabinet. This plan is to compel all persons cashing interest coupons to make out a certificate of ownership. The certificate would be given to them by the banks, when the coupons were presented for payment. In addition to declaring ownership, the bond holders would have to sign an affidavit declaring the income concerned had been shown on their tax statement. The certificates and affidavit, of course, would be forwarded to Ottawa and checked against the tax statements.

Price Remains the Same

Radio License Will Be Two Dollars For Another Year

Ottawa, Ont.—Radio licenses will remain at the \$2 figure for another year, Hon. Alfred Durnaleau announced in the House of Commons. At the same time he expressed the hope the Canadian radio commission would limit programs to advertising produced in Canada, good or to Canadian non-advertising programs.

The House "went on the air" discussing radio estimates of the Department of Marine and taking in a wide range of topics. No decision had been made, the minister said, on the system of collecting receiving licenses this year although the object was to force every owner to pay his fee.

Mr. Durnaleau said the department this year would be paid for 100,000 more radio licenses at \$2 less £10 40 cents commission, under the house to house canvass system.

Health Insurance

Edmonton, Alberta.—Only by a contributory health insurance scheme can adequate state medical services for all Alberta people be secured, according to the state medicine committee's report, tabled in the Alberta legislature by Hon. George Hoadley, minister of health.

May Amend Game Act

Edmonton, Alberta.—A government bill to amend the Alberta Game Act, if accepted by the Alberta legislature will permit farmers to shoot game birds anywhere in the province without a license. At present the farmer can only shoot game birds on his own property without a license.

World Postal Congress

Ottawa, Ont.—Executive of the world postal union met in Ottawa from May 15 to June 29 to pre-congress to be held in Cairo, Egypt, congress to be held in Cairo, Egypt, next February.

Protest Arms Embargo

Should Be Limited To Aggressor Opinion Of China

Nanking, China.—It was officially announced that China was making representations in London in connection with the British arms embargo against China and Japan.

Spokesman for the Chinese National Government foreign office said any Far East arms embargo should be limited to the aggressor warring war on China. "It is a colossal blunder and it will have absolutely no effect on the present hostilities."

Tokyo, Japan.—Great Britain's announcement of an arms embargo against Japan and China was interpreted by Japanese authorities as meaning a handicap for China only. In official and business circles there was uneasiness lest the embargo turn out to be only the first instance of pressure against Japan, with the possibility of eventual economic sanctions.

Fine For Honeymooners

Mussolini Cuts Railway Fares For Newly Weds

Rome, Italy.—Honeymooners have been streaming into Rome at the rate of 2,000 couples a month since Mussolini granted them reduced railroad rates.

The order cutting 70 per cent. off newwed's fares from anywhere in Italy has been in force seven months. In that time 14,000 couples have visited the capital.

Pope Pius has received practically all of the visitors. He gives each bride a rosary and each bridegroom a religious medal.

GERMANY TO TAKE MEANS TO SUPPRESS REDS

Berlin, Germany.—Hermann Goering, minister without portfolio in the Hitler government, declared in a speech that the incendiary fire at the reichstag building was meant to inaugurate a series of violent acts culminating in a Communist revolution.

For this reason, he asserted, the government was justified in promulgating its drastic decrees of the last few days, which have already increased penalties for treason and have placed Germany under virtual martial law.

Captain Goering declared the lives of Communists and Socialists were not endangered so long as they kept strictly within the law.

Chancellor Hitler, addressing a delegation of Nazi workers, promised to annihilate the lot of the German workman so that Communist arguments no longer would draw him.

The nation-wide process of squelching Communism continued unabated, with hundreds of leading Communists undergoing arrests, while many others fled to hiding.

Extensive precautions were resorted to for the protection of railways, bridges and power stations. Numerous armed guards were posted.

Squads of armed storm troops in the brown Nazi uniform can be seen at any time marching through Berlin streets on auxiliary police duty. About 3,000 are in service here. Throughout Prussia there are about 60,000 of them.

ARGENTINE TRADE MISSION IN ENGLAND

Dr. Julio Roca, Vice-President of the Argentine, is shown with General Sir Charles Harrington, G.O.C., when he visited the Aldershot Command in Hampshire. Dr. Roca is in England at the head of the Argentine Trade Mission seeking trade treaties with the Mother Country.

CALLED TO BAR

Lady Chatterjee, wife of Sir Atul Chatterjee, head of the Indian delegation which came to Ottawa to the Economic Conference last summer, was kidnapped February 12, had been released by his abductors and that no ransom had been paid.

Clark said the 31-year-old broker was released from a motor car and immediately communicated with the home of his father, Claude K. Boettcher. He was taken to the elder Boettcher's home and the chief of police rushed there to question him.

Clark said young Boettcher was in good condition when released. Details of the release were not immediately available, but Clark said Boettcher had been released from the car on the outskirts of the city. Clark said he did not have full details of the release, but reiterated that no ransom had been paid.

Boettcher, prominent young Denver broker and member of one of the city's wealthiest families, was abducted by two men from the garage at his home Sunday night, February 12, and held for \$50,000 ransom.

Millionaire Released

Chas. Boettcher, Kidnapped February 12, Is Freed By Abductors

Denver, Col.—Chief of Police Albert T. Clark announced that Charles Boettcher 2nd, heir to millions, who was kidnapped February 12, had been released by his abductors and that no ransom had been paid.

Clark said the 31-year-old broker was released from a motor car and immediately communicated with the home of his father, Claude K. Boettcher. He was taken to the elder Boettcher's home and the chief of police rushed there to question him.

Clark said young Boettcher was in good condition when released. Details of the release were not immediately available, but Clark said Boettcher had been released from the car on the outskirts of the city. Clark said he did not have full details of the release, but reiterated that no ransom had been paid.

Boettcher, prominent young Denver broker and member of one of the city's wealthiest families, was abducted by two men from the garage at his home Sunday night, February 12, and held for \$50,000 ransom.

New Motor Law

Bill Introduced in Saskatchewan Legislature For Protection Of The Public

Regina, Sask.—Motorists responsible for an accident will have their licenses taken away until they pay any judgments rendered between \$100 and \$1,000 for property loss, \$5,000 for the death of one person or \$10,000 for two or more deaths, according to a bill brought into the legislature by Hon. A. C. Stewart, minister of highways.

The proposed act also provides proof of financial responsibility before an auto license is issued to any person under 21 or over 65 years of age, or anyone held responsible for a motor accident.

Saskatchewan's proposed law on financial responsibility of motor owners and drivers is modelled after Ontario's law.

The proposed act does not deny the plaintiff in any motor accident case from proceeding for remedy under any other section of the law.

Banning Allegiance Oath

De Valera In Position To Force Removal From Constitution

Dublin, Irish Free State.—In sixty days the oath of allegiance to the British crown will vanish from the constitution of the Irish Free State and become a dead letter in the Anglo-Irish treaty.

The Dail Eireann passed by a vote of 75 to 40 a government bill abolishing the oath of allegiance to the British crown. The measure now goes to the senate.

The constitution provides that bills which the senate refuses to pass in such a manner as to satisfy the lower House will, at the expiration of 18 months, become law despite the senate.

In the event the dail is dissolved in the meantime, the waiting period is shortened to 90 days.

After the 1932 elections, when Mr. de Valera found himself heading the government for the first time he immediately attempted to remove the oath. He was blocked by the senate. He is now in a position to force removal of the oath, but is still faced with a possibility that this move will fail to satisfy left wing extremists, including the old Sinn Fein.

Royal Assent Given Bill

Authority Granted Manitoba To Borrow For Financing Relief

Winnipeg, Man.—Authority for Manitoba to borrow money for the financing of unemployment relief and to lend money to municipalities for their share of relief costs, was granted the province when Premier John Bracken's bill was given royal assent.

Although the act as it was amended by Mr. Bracken provides for the province borrowing money without specifying the source of the loan, Premier Bracken served notice on the House that later in the session the members will be asked to unanimously request the Dominion to make loans to the province.

Gun Running Plot

Seizure Of Machine Guns In Vancouver Leads Police To Investigate

Vancouver, B.C.—Seizure by police of six machine guns, disassembled and expertly packed in the back of a parked automobile and more than 100,000 rounds of ammunition, has led officers to investigate the possible existence of an international gun-running plot centering in Vancouver.

Authorities are attempting to trace the origin of the guns, convinced they were designed for shipment to China to be used in operation there against the Japanese. No local trouble, police point out, could possibly call for the use of such a formidable array of guns and large amount of ammunition.

RAILWAYS WILL MAKE USE OF AUTO TRUCKS

Montreal, Que.—An important development in freight services on the Canadian National and Canadian Pacific Railways which will provide door-to-door pickup and delivery of freight shipments without extra cost to either shipper or consignee, was announced jointly by George Stephen, vice-president in charge of traffic of the Canadian Pacific Railway, and Alistair Fraser, K.C., acting vice-president in charge of traffic of the Canadian National Railways.

The two railways, the announcement stated, had completed contracts with approximately 45 trucking firms at cities and towns served by their lines in western Ontario, between Toronto and Windsor and Toronto and Sarnia, whereby pickup and delivery service will be provided for shippers at no extra cost. New tariffs embracing this feature will become effective this week.

The railways, it was emphasized, are not entering the trucking business. At some of the points affected by the new tariffs, they already have contracts with cartage firms for pickup and delivery of freight.

Under the present plan, however, this service is extended, by arrangement with local trucking contractors, to points where pickup and delivery service did not previously exist.

The new door-to-door consignment system will improve the service offered at such points and will make use, under contract, of existing cartage services instead of involving the organization of new facilities for that purpose.

JAPANESE ARMY BREAKS DOWN CHINESE DEFENSE

Chinchow, Manchuria.—Japan's invading force has broken through the strongest Chinese defenses, less than 75 miles from Jehol city.

The 16th infantry under General Tadashi Kawahara poured into Ling-yuan, passed through without stopping, captured the town of Sutaijing, a few miles west, and kept right on to Peking, on the motor highway which leads to the capital.

General Kunio Matsuda, commanding the 11th infantry, moved down from the north, having captured Chienping, to join General Kenesaku Mogi's fourth cavalry which was waiting at Chihfeng.

The cavalry took Chihfeng without a fight, for when they came within sight of the city of Shi Wen-Hua, the Chinese commander already had hoisted the flags of Japan and Manchukuo. Apparently he was willing to throw in his lot with General Mogi and join in the final advance against Jehol city.

Despatches from that capital said two Japanese planes had bombed the new airbase near the city. All through the previous stages of the advance air raids have preceded the attack of the main force.

General Tang Yu-Lin, provincial governor of Jehol, has given no sign of his intentions. The Japanese still hope he will surrender.

The worst of the fighting in the mountains apparently is over but there have been skirmishes, some of them heavy, indicating that the broken Chinese forces are worrying the Japanese.

Part of the advancing forces are moving west along fairly good roads by motor truck and armored cars from Lingyuan. Despatches reaching here indicated that about 200 resistance encountered in the next few days be no more serious than that already overcome, the Japanese will make good their prediction that Jehol city will fall before another week has passed.

Death Of J. B. Campbell

Was Father Of Proprietor Of Edmonton Outfitters Regina

Daily Star

Vancouver, B.C.—J. B. Campbell, 79, for a quarter of a century shipping master of Vancouver harbor, is dead. He had been ill for four months. Born in Woodville, Victoria County, Ontario, John Bell Campbell came to Vancouver in 1898. Besides his long public service in the federal marine department here, he was alderman for Ward for six years.

Charles Campbell, proprietor of the Edmonton "Bulletin" and Regina "Star," is his only surviving son. His wife survives him and there are three grandchildren. Three brothers, P. G. Charles and G. L. Campbell, resident in Vancouver and a fourth brother, Archibald, in Toronto, also survives.

May Require Lights

Toronto, Ont.—Pedestrians in Ontario may or may not be required to carry lights when walking on the king's highway. A bill sponsored by W. E. N. Sinclair, K.C., House Liberal leader, which would require the walkers to light up was sent to the legal committee of the House for further consideration.

Dividends Run Into Millions

Toronto, Ont.—Despite adverse business conditions dividends to be paid in March by Canadian companies may exceed \$16,000,000 when all declarations are made. At present some 43 companies have declared dividends and there are a few more which usually make payments in March.

May Close High Schools

Calgary, Alberta.—Closing of Calgary high schools may occur unless the city can find a way out of its present financial predicament, it is understood. Struck severely by declining revenue following the depression's appearance, the city is forced to every economy. Primary schools would not be shut down.

No Recent Loans Made

Winnipeg, Man.—Loans have been made by the Dominion government to the provinces, including Manitoba, but none have been made since April, 1932, for direct unemployment relief, stated Premier John Bracken in the legislature. Neither had loans been made in respect of the municipalities' share of the expenditure.

W. N. O. 1984

Predicts Many Earthquakes

Famous Seismologist Forecasts Disturbances For This Year

A "rather agitated year" in the way of earthquakes, with especially great tremors in Alaska and the Greater Antilles, is the forecast for 1933 of Dr. Raffaele Bendani, the famous seismologist.

Known as "the wonder man of Faenza," Dr. Bendani, head of the Geodynamic Observatory of Faenza, is noted for the amazing accuracy of his seismic and volcanic predictions. His forecast, for example, a quake in eastern America for early in March, 1925, on March 2 of that year New Yorkers noted prolonged earth shocks.

Although several important quakes are foreseen for this year, in widely separated regions of the earth, Dr. Bendani states that the movements in the earth's surface will avoid thickly populated regions, thus preventing a repetition of the Messina and Tokyo catastrophes.

"In February in Alaska and the Greater Antilles, there will be an outbreak that will reach the proportions of an appalling manifestation," Dr. Bendani told International News Service.

"Throughout the southern chain of the Andes mountains in South America in March there will be sudden threatening awakenings of dormant telluric energy.

"In April the earth will tremble in far-away China.

"In May there will be bad news from Mexico."

After that, he said, there will be some months of seismic quietness, when Vulcan will once more visit one of his most famous stamping grounds, New Zealand.

"The Balkan peninsula will shake in September," went on Dr. Bendani. "Finally there will be a few other quakes in Turkestan and India before the end of the year."

Remembered His Friends

Requests Left By Toledo Artist Provide Annual Birthday Gifts

Requests to be given to fifty-nine friends annually on their birthdays were provided for in an unusual will filed for probate at Toledo, Ohio.

The late Frank J. Neel, art connoisseur, miniaturist and member of an old Toledo family who died Jan. 29, named seven friends as beneficiaries to be to receive \$200 a year on their birthdays as long as they live. The will also provided for gifts of \$100 each to fifty-two other friends to be distributed each year on their birthdays as long as they live. It was stipulated that the \$100 bequests were to be increased to \$200 a year as soon as the estate could carry them.

All of the beneficiaries live in Toledo except Beatrice Craig of Hartside, N.Y., who is listed among those who are to receive \$100 annually.

Age Determined By Hair

Scientist Claims It Has Concentric Rings Like Trees

A method by which it is claimed to be possible to determine the age of a person by examination of a single hair was demonstrated here at the convention of the International Association of Identification by Calvin Goddard, of the scientific criminal detection laboratory of North-Western University at New Orleans.

The method depends upon the discovery that when powerfully magnified, the hair reveals a system of concentric rings something like the familiar rings of trees. This is the newest method of scientific detection.

Working On Perfect Mirror

Science comes a step closer to the perfect mirror, one which will reflect every bit of the light, with a new metal surface announced in the Physical Review by Hiram W. Edwards, of the University of California. These mirrors, he says, should be of considerable value in various optical instruments where front surfaces of high reflecting power are desirable.

All In The Same Boat

The farmers' interest could never in reality be divided from that of the towns. Both are now threatened with a common ruin, and the only hope of the one is the hope of the other. This is in the increased demand which follows improved trade and the improvement in trade, to be effective, must be world-wide.—London News-Chronicle.

A Munich professor has taught fish to respond intelligently to sounds and colors.

W. N. U. 1984

BRITISH GOLF QUINTET AFTER NEW HONORS

Our picture shows the happy golfing quintet from the Mother Country who have arrived on these shores to compete in some of the major United States' women's golf tournaments. The British golfers, reading from left to right, are: Miss Kathleen Garrahan, Miss Diana Fishwick, Miss Betty Dix-Perkin, Miss Gwen Hartopp and Miss Barbara Pymman.

Wanted To Conserve Trees

Late Frank J. D. Barnum Saw Danger In Forest Depletion

Frank J. D. Barnum, who died in Paris a few weeks ago, was Canada's foremost advocate of reforestation. After retiring from active business about ten years ago, he set aside half his fortune for a one-man campaign to conserve the Dominion's "fast-vanishing forest resources."

His death occurred when he was returning from Italy, where he had inspected Premier Mussolini's gigantic reforestation system. He had gone to Italy on invitation of the chief of the country's forest service.

Wherever he went, whether to New York, London, Paris, the Hague or Berlin, he talked trees. Sometimes he became disgusted with "the cold-blooded indifference of Canadians toward the slaughter of their forest" and in one of these moods he decided to sell his vast holdings and leave the country because he had no desire to live in a treeless country, a condition which Canada is fast approaching.

Englishman Fyles Challenge

Hubert Scott-Paine Will Race Garwood For Harnsworth Trophy

Hubert Scott-Paine, English motorboat designer and builder, considered by many England's leading speedboat driver, has taken up the task of wrestling supremacy on the water from Garwood and filed a challenge for the Harnsworth trophy for 1933.

The challenge was mailed to the Yachtmen's Association of America, which holds the trophy for Wood, through the Royal Motor Yacht Club of England. The races will be run at Detroit, Sept. 2, 4, and, if necessary, 6.

He will name his new boat Miss Britain III, and will power her with a 1,350-horse-power motor of the supercharged type used in the British Schneider cup seaplanes of several years ago. He declined to reveal further details but said his hull would be a new and "unorthodox" design.

Denied Double Income

Request Of Newly Married Swedish Prince Has Been Refused

The time honored question as to whether two can live as cheaply as one may be applied to Swedish royalty. E. Wigforss, Finance Minister, declined to approve an additional allowance of 100,000 kronor (about \$20,000) to Prince Gustaf Adolf, who was married last October to Princess Sibylle, of Germany. The 26-year-old prince already had 90,000 kronor a year, but his marriage, it is claimed, doubled his expenses. The total outlay for the royal family is reduced in the Wigforss budget by \$16,000 through cutting household expenses at the castle.

A Real Handicap

Platform orators assert that we shall pull through because our forefathers did when they pioneered this country. We shall pull through, of course, but the argument is flimsy because the pioneers did not have to finance too many governments, too many railroads and too many high-salaried commissions.—Farmer's Advocate.

Many Patents Issued

The Boston Transcript says in 1923 the U.S. Government issued eleven thousand more patents than in 1931—all for mechanical contraptions, and not one, apparently, for perfecting the nature of mortal man to fit him to use them wisely and for the benefit of the entire race.

More than 7,000,000,000 matches were made in Portugal last year.

Has Not Changed Course

Survey Proves Idea About Gulf Stream Is Wrong

It has been bruited about often in recent years that the Gulf Stream, by shifting its course, has managed to change the climate of the eastern part of the North American continent, bringing milder winters than our grandfathers or great-grandfathers endured. Recent winters have been mild, generally speaking, though persons not yet ancient can remember the rigors of the winter of 1917-1918. Mild winters or severe ones, the Gulf Stream cannot be charged with responsibility. A survey carried out by the officers of the British destroyer "Saguenay" in the course of that vessel's passage to the West Indies station, confirms the situation of the Gulf Stream as that indicated on the 1911 charts. Americans, the New York Sun points out, have previously had frequent assurance from their own surveys that the Gulf Stream had not changed was not changing, would not change its course.

Indomitable believers in the powers of the Gulf Stream may maintain that the Gulf Stream, notoriously sly and wily, received advance information of the intended survey and went back to the haunts of 1911 further to perplex a harassed and bewildered world. To some that may seem plausible; that famous ocean current has been invented with so many remarkable abilities that it only strains credulity a trifle more to think of the Gulf Stream as capable of spoofing unimagination surveys of the deep.—St. Thomas Times-Journal.

An Animal Mystery

How Tailless Cats Got To Isle Of Man Is Puzzle

One of the minor mysteries of animal migration is how the Manx cats—cats of which is being sent to the Prince of Wales' farm in Nottinghamshire to act as official mouscatchers—got to the Isle of Man. They certainly aren't natives of Man—cats of the same breed are encountered in many parts of Russia, and their original home is believed to be farther east, perhaps in Japan. It is noteworthy that normal long-tailed cats are rare in that country and in China. But how the tailless cats got across the world to the Isle of Man is a puzzle.—London Animals.

Modern girls have something in common with their grandmothers, they love spinning wheels.

Savings deposits in Germany are again mounting.

Clever At Embroidery Work

Prince Of Wales Not Only Man To Take It Up

Men may now unleash their overwhelming desire to embroider. The Prince of Wales has done it, and one need be afraid to follow in his wake. The prince used to knit when he was a small boy and lately he has learned the intricacies of petit point. One of his first pieces of work in this medium is an attractive backgammon board, which was on view at a recent exhibition in London. It has a color scheme of red, blue and fawn. Silk and wool have been used for the half-diamond design in petit point and half-stitch.

Many men may embroider on the fly. Lord Clarendon does it quite openly. On the voyage to South Africa two years ago he often took a hand at the embroidery frame on which the map of Africa was growing. Lord Hyde, too, could be seen stitching busily in the hottest parts of the day. The princess royal's husband, Lord Harewood, is another skilled embroiderer.

May Take Action

Government May Consider Amendment To The Judges Act

The Federal Government is understood to be considering an amendment to the Judges Act providing for the automatic retirement of king's bench and appeal court judges at the age of 70 years.

Such an amendment, in principle, has been approved twice by parliament and there is no doubt that action of some kind will be taken sooner or later. But whether the government will introduce the amendment this session is not yet decided. Judges of other courts retire by law when 75 years old.

Decision Rests With Britain

It would be suicide for any British Government to accept an American demand for stabilizing sterling, says the Bank of England director, Sir Josiah Stamp, in an interview in the Berlingske Tidende of Copenhagen. He added: "The question of the future of sterling may be discussed at the world economic conference at London, England, but never will be decided from Washington."

Hospital Sweepstakes

The British Columbia Hospitals' Association has voted 77 to 10 in favor of government-controlled sweepstakes for the benefit of hospitals. The vote was authorized by the annual meeting of the association in Vancouver last fall.

Canada's Tobacco Industry

Cigarettes Form the Main Item Of Tobacco Production

The most popular form in which tobacco is used in Canada is in cigarettes. An analysis of the tobacco manufacturing industry in Canada for the year 1931 has just been issued by the Canadian Government Bureau of Statistics. It shows that in the year under review the total production of the industry was valued at \$74,926,154, a decrease of 12.5 per cent. compared with 1930. The main item that goes to make up the aggregate value of the output was cigarettes to the number of 4,431,585,000 valued at \$42,865,121. The number is equal to about 426 for every man, woman and child of the population of the Dominion, and if placed end to end would extend approximately 190,000 miles or enough to girdle the earth more than seven times.

The next favorite smoke among Canadians is pipe tobacco which had an output of 17,075,000 pounds valued at \$18,883,696. Cigars, with a production of 155,412,000 valued at \$7,247,152, come next. Chewing tobacco, while not so generally indulged in as it was a generation or two ago, is by no means likely to pass into the discard for some time for the output was 5,200,854 pounds valued at \$4,612,085. The art of habit of snuff-taking evidently continues popular in the Dominion as the production in 1931 was 928,351 pounds with a value of \$1,192,309.

The Canadian tobacco industry consumed 33,969,546 pounds of raw leaf tobacco in 1931, 19,006,792 pounds of domestic origin. For the production of cigarettes 1,411,469 pounds of imported and 1,489,559 pounds of domestic tobacco were used; for the production of cigarettes 6,402,549 pounds of imported and 4,899,581 pounds of domestic tobacco were required, while for the production of smoking and chewing tobacco and snuff 7,148,736 pounds of imported and 12,613,652 pounds of domestic tobacco were used.

Foreign trade in manufactured tobacco is small compared with the domestic production. In 1931, imports of cigars were valued at \$30,641; cigarettes, \$35,118; cut tobacco, \$24,025; snuff, \$13,116 and all other manufactured tobacco, \$161,436. Exports were even smaller. There was, however, an export of 6,897,801 pounds of unmanufactured tobacco, valued at \$2,018,802, most of which was shipped to the British Isles. Compared with the previous year there was an increase of 1,331,937 pounds in the quantity of raw tobacco exported.

Gas Quota Proposed

Alberta Board Suggests Curtailment Daily Production To 200,000,000 Cubic Feet

Removal of all drilling restrictions with a daily gas quota of 200,000,000 cubic feet in Turner Valley oil fields is recommended in the Alberta government's gas conservation board report recently issued.

Companies would not be allowed to drill new wells whenever they wish but production would have to be curtailed to the set figure of 200,000,000 cubic feet daily, according to the report which will be tabled in the Alberta legislature shortly.

The board report suggested the present restricted gas production in the valley be replaced by a prorated plan as soon as convenient. Under this system, each owner of oil and gas lands within the productive area would have a certain allotment yearly, with additional allotments, resulting when new wells come in, being met from those not in use or by an increase in the total daily figure, if necessary.

Naphtha production in Turner Valley would have ceased at the end of 1933 if oil companies had not instigated conservation to the interpretation by some oil operators of a chart which accompanied the Alberta gas conservation's report. Other oil men dispute this statement.

Germany Has Speedy Boat

A boat has been built in Germany which will skim across the water at a great speed. It is driven by propellers in the air and the craft is fitted with exterior pistons which will hold her steady in a rough sea. There is also a series of fin-like planes which will raise the boat almost clear of the water when under way.

A new electric iron, fitted with a handy heat indicator, shows at a glance whether the iron has attained the correct temperature for the articles ironed. It indicates the proper ironing temperature for wool, pure and artificial silks, cotton and starched materials.

Garden Notes

(By Gordon Lindsay Smith)

Do not be fooled by the tales you hear about all seed coming from the same source. There is a wide variation in this, prices running from a few cents a pound for some to several dollars, and all of the same name. Then, too, while certain varieties may give wonderful results in England or the Southern States, they may be a failure here. Reputable Canadian seed houses select their seed from those sources which turn out stock specially recommended to Canadian conditions. Naturally, if they didn't, they would not remain reputable very long. You may have perfect soil and take all your exercises with a hose and rake, but without good seed you haven't a chance. Remember, too, that good seed is grown by experts who specialize on one or two lines and have space sufficient to prevent breed and insect infestation by this and that, therefore, strains and varieties indiscriminate.

When spring really arrives Canada enjoys the finest climate in the world for most vegetables and flowers. To get the most out of this time, you really should start some of our vegetables and flowers from seed indoors, and get them well under way to the season without going to the considerable expense of purchasing starting plants. A hot bed in the back yard, though good results are obtained by using flat boxes in a sunny window. Hot beds are made in early March, get a supply of fresh horse manure which has been turned frequently to prevent burning. Dig a hole as big as the window, and you are to use, or build above the ground by a wooden frame and boards. From twelve to fifteen inches of manure well pressed down is needed, and on top of this put two inches of fine soil. A hot bed in the back yard, the same to slope to the south to catch the sun and allow the rain to run off. It is not to be built up above the earth. The sides, of course, are boarded up to keep out the cold air. Allow the bed to heat up for a week or two, then plant in rows about 8 degrees, sow seed in rows about an inch apart, watering carefully through the glass. A glass should be spread over the soil to prevent the seed washing out.

If you have a sunny window, follow the same procedure, only no heating manure is needed, simply a box three inches deep with two inches of soil. This is not when plants start to develop their second set of leaves, and when still bigger, transplant to a cold frame. If you have a hot bed only without the manure, or another box, and harden by removing protection gradually until the plants are practically outdoor conditions. Among the flowers, anything that will transplant in the 20s is possible. Petunias, Cosmos, Marigolds and others so specified in the seed catalogue or on the seed packet. For the vegetables, pepper, celery, egg plant, cabbage, tomato and head lettuce. Some very early things can be had in the hot bed and will be ready for the table months before the rest of the season.

Spring Posa
An early start is essential. Usually there comes a time in March or April when the weather is just a bit of our soil for a few days and it is then that we should plant the sweet peas which must get a good start while the weather is cool. Dig a trench a foot deep and in the bottom put a few inches of straw or manure, and plant the peas. Press this down well and add three inches of soil. The plants level. This treatment encourages deep rooting in cool earth. Provide from three to five feet of lining support in the form of brush or old fence rails, straws or wire. A little commercial fertilizer dissolved in water and carefully applied to the soil will actually toughen the plants, is also advised. Cultivate thoroughly, soak with water in dry weather and you will have abundance of bloom from July until frost. Never allow the flowers to go to seed or bloom will cease.

Would Increase Taxation

Move To Boost Taxation On Chartered Banks In Manitoba

The Manitoba Government will be petitioned to increase the taxation of chartered banks, according to a resolution passed at the annual convention of the Manitoba School Trustees' Association in Winnipeg.

The preamble of the motion declares the banks have more in net profits more than \$200,000 for their stockholders during the year 1932, and the fair and equitable method of taxation is the taxing of those able to pay.

Archaeological Discovery

The series of wall sculptures uncovered by Dr. Ernst Herzfeld under 28 feet of rubbish and masonry of Persepolis, ancient Persian city, is considered the greatest discovery in the history of archaeological research anywhere. The series of wall sculptures, if set together, would form a panel of five or six feet in height and almost 1,000 feet in length.

Weighing is the only method of ground transport in northern Siberia in winter.

FANCIFUL FABLES

SHE WAS GETTING FATTER

Now Down To Normal

"It was putting on flesh very rapidly," writes a married woman, "and also suffering from constipation, and was very liverish. Three months ago a friend advised me to take a teaspoonful of Kruschen Salts in hot water every morning. I have kept this up regularly ever since, although I have been down to my normal weight (126 lbs.) for several weeks. I intend to carry on with Kruschen always. Several of my friends have remarked how slim I was getting and how well I was looking. After my having told them how it was done, they are doing the same." (Mrs. J. D. H.)

Overweight arises frequently because the system is loaded with unexpelled waste, like a furnace choked with ashes and soot. Allowed to accumulate, this waste matter is turned into liver after liver of fat. The six salts in Kruschen assist the internal organs to throw off each day the waste and poisons that cumber the system. Then, little by little, that ugly fat goes—slowly, yes—but surely. You feel younger, more youthful and energetic—more so than ever before in your life!

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your druggist for the new "GIANT" 75c package. This consists of our regular 75c bottle together with a separate trial bottle, sufficient for about two weeks' use. When the trial bottle is used, you will know for certain that Kruschen is still as good as new. Take it back. Your druggist will refund the money from your 75c, immediately and without question. You have tried Kruschen, and you know it's what should be taken! Manufactured by Dr. G. H. Kruschen, Ltd., 1100 St. George Street, Toronto.

HEART OF THE NORTH

by
WILLIAM BYRON HOWERY

Copyright by William Byron Howery

CHAPTER VI.—Continued.

A question came from Joyce: "He and—Elizabeth—have decided definitely, then, Bill?"

"Yes. She's waiting for him to come for her or send for her. They've made plans to be married in Edmonton and have their honeymoon in Selkirk and then go on over to Victoria."

Joyce asked one last question. She asked it calmly, without faltering or even pausing on the precipice edge.

"Did Elizabeth say that, or did Alan?"

"Alan said it. I overheard them that night he left. They planned it together, there in his cabin. . . ."

Joyce was aroused by old Dad Pence calling for her. Raising her head from her arms, she looked around. Gropingly she realized that she was there on the jutting rock, numbed with cold—with a cold that was more than physical.

Dawn had come. The dark hours had passed. It took her moments to realize. Time had stood still for her since she told Bill good-bye.

Before going up the river bank she had the presence of mind to go down to the water edge and bathe her face and hands and smooth back her hair.

She went back to the trading store with old Pence, and prepared breakfast for him. Over his birch-marl

pile old Pence began whittling again at the "story-stick" he was carving these days. The stick was a long-standing ambition of his, for with his razor-keen, six-bladed knife, he was carving the story of his life. And he was going about it in earnest, carving steadily every day. It was as though he had some dim fore-knowledge of the black wings hovering—a warning to hurry.

Noticing Joyce exceeding paleness and her exhaustion, he bade her: "Now you got to go an' get a gal. I'll tend to th' furs this mornin', if anybody comes."

Joyce went into her room. It seemed so cold; she could not get warm; the chill seemed to have pierced her through and through. She kindled a fire in her small sheet-iron stove and put in wood, and then lay down on the bed.

From the dresser Alan's picture was looking down at her. She did not glance away, but looked at it steadily, as she lay there so motionless and still.

The exhaustion that had drained her had left her very quiet of mind. She could think clearly, in thoughts precise and rational. . . .

You fought this battle once, Joyce, and you won it; and then you handed the sword back to your enemy and gave him power over you again. When Bill first told you last fall of Alan's engagement—to you remember the heartbreak of those weeks, Joyce?

You finally rose above it, you conquered. But then you permitted yourself to hope again. When Alan merely came past here on a patrol, after staying away from you all winter, you must wait with hope.

Last night Bill came to you once again; and after he left, you collapsed there on that rock. Joyce, don't lay yourself open to agony such as that. You must forget Alan Baker. You must, you must!

You cannot turn this way or that; you cannot evade it; you must walk that path. You must never again look back. You have been punished for looking back, and your punishment has been terrible. In self-preservation you must forget Alan Baker.

As she lay there gazing up at Alan's picture and seeing her course so clearly, it seemed to Joyce that if she could destroy his image there on the dresser, if only she had the courage to do that, it would be a symbol of destroying his image in her heart.

After a little while she got up from the bed; and going over to the dresser, began taking out of it all of Alan's letters to her. They dated back across his years, addressed to her here, at her college, at Ottawa—all of them carefully treasured. Pack by pack they went into the stove.

There was good augury for Joyce in the firm and unhesitant way she set about burning them.

He had given her more than a few presents; a costly old-fashioned lavaliere which had been his mother's; a miniature horse chest of India-silk kerchiefs which had been the envy of her college friends; a gold-and-ivory hunting knife; a wrist watch for graduation present, and a dozen less expensive gifts. Joyce laid aside the lavaliere to send to Elizabeth; but the other gifts she destroyed by fire.

She took his picture from the dresser and burned it.

Afterwards she sat by the table writing a long letter to her bureau chief in Ottawa, telling him frankly about her father, her hope to see her father vindicated and then to bring him over to Ottawa with her; and asking him if his former promise of a position whenever she wished to return was still good.

At noon, hours later, when old Pence looked in, he was pleased to find her plunged into a dreamless sleep. The secret worry he had noted on her face this last week seemed to have gone now. Her features were pale, but there was a look of peace on them, of some strange spiritual peace at heart.

CHAPTER VII. By Lone Camp Fires

That gray dawn when he said good-bye to Joyce at Fort Endurance, Baker set off alone on a journey of a thousand miles. Instead of heading northeast toward the Athabasca where the bandits were hiding, he turned his canoe prow directly away from them and started south, up the Mackenzie.

He did not delude himself about his plan. It was little better than a desperate gamble, and he knew it. But the usual man-hunting methods were useless against those criminals; and his plan was the last thing in the world they would be expecting.

By travelling in his own motor canoe, depending entirely on his own resources, he expected to cut ten days from the fastest time of the fur-company boats.

In those lonely hours, as he stared in stately at the shimmering pine

THE CHRONICLE, CROSSFIELD, ALTA.

NO MORE EXCUSES FOR STOPPED-UP DRAINS

Gillett's Lye dissolves clogging grease...

JUST sprinkle Gillett's Pure Flake Lye down your drains and toilet bowls each week. Use it full strength—this powerful cleanser cannot harm enamel or plumbing. Grease and dirt dissolve like magic... germs are killed... odors banished. Your drains run free and clear.

And Gillett's Lye in solution has many uses in your kitchen. One teaspoonful dissolved in

a quart of cold water makes short work of greasy pans, tracked-up floors and other three-cleaning tasks.

Use Gillett's Pure Flake Lye for all your household cleaning. It saves hours of hard work. Ask for it by name... at your grocer's.

The three God plants

* Never dissolve lye in hot water. The action of the lye itself heats the water.

Free Booklet

The Gillett's Lye Booklet tells you how to avoid drudgery by using this powerful cleanser and disinfectant for dozens of heavy cleaning jobs.

Also contains full directions for soap making, disinfecting and other uses on the farm. Ask for free copy, Standard Trade Limited, Fraser Avenue & Liberty Street, Toronto, Ontario.

Grasshopper Menace

Steps Being Taken Now To Meet Insect Invasion

The prairie provinces are facing invasion. In Manitoba, particularly, will the brunt of battle be felt this summer. The enemy forces in that province alone will number at least 4,300,000,000. To combat that force "munition factories" in Manitoba are working day and night and a conference between provincial and federal strategists was held in Winnipeg on March 2 when the most intensive plan of campaign ever drawn up in Canada was decided upon.

The enemy? Just the humble but destructive grasshopper.

The munitions? Technically they are known as "bait," a combination of "half and half" sawdust, bran and sodium arsenite.

The conferees? Leading entomologists headed by Norman Criddle.

This year Manitoba is preparing for one of its worst invasions in certain areas. It will cost the province in the neighborhood of \$150,000 to wage a battle in an infested area estimated at 1,000,000 acres.

Incidentally the introduction of sawdust in the bait is a Canadian discovery which saved \$40,000 last year and which is now accepted in all parts of the continent.

Made Complete Circle

Christmas Present Got Back To Sender After Two Years

A woman in Kansas City made an apron a fancy affair of ribbon and lace and orquid—and sent it to her cousin in Illinois for Christmas in 1929.

Last year she got back the very same identical apron from an old school friend in California. It was in fine condition and the woman knows just where she can place it another year but she would like awfully to know who got it in 1930 and 1931.

To only a few it is given to find that, after the struggle is left far behind, the paths not understood were not always unkind; For wisdom and patience and power and trust.

And the will to be just though all earth seem unjust Come but slowly to flower, as the rose from the dust.

As the rose from the dust, as the lily from mire, So they blossom, those spirits that greatly aspire, Those souls that are quickened by noble desire, Till at last what was dream stands revealed there as true.

In the heart of a world that is fashioned anew; To a few this is given, to only a few!

THE RHYMING OPTIMIST

By Algeo Michaels

TO ONLY A FEW

To only a few it is given to know That all roads are winding, by swift ways or slow,

To the place of the dream which they glimpsed long ago.

To the place of the dream that has made their hearts strong

To endure through dark seasons of evil and wrong

For the sake of the hope that is sweeter than song.

To only a few it is given to find That, after the struggle is left far behind,

The paths not understood were not always unkind;

For wisdom and patience and power and trust.

And the will to be just though all earth seem unjust

Come but slowly to flower, as the rose from the dust.

As the rose from the dust, as the lily from mire, So they blossom, those spirits that greatly aspire,

Those souls that are quickened by noble desire, Till at last what was dream stands revealed there as true.

In the heart of a world that is fashioned anew; To a few this is given, to only a few!

Royal Family Likes Snaps

Nearly Every Member Uses Camera While On Holidays

There is scarcely a member of the Royal Family who does not carry a camera on holidays. From the King and Queen downward each takes the liveliest interest in snapping, and not only in that, for they also like to develop their own films.

The Duke of York is the champion photographer of the Royal people, and is the proud possessor of an album of delightful pictures depicting the Duchess and the two

INCOME TAX RETURNS

Government of Alberta

Important Notice

Income Tax Returns under the Provincial Income Tax are now due and should be filed with the Supt. of Income Tax Qu'Appelle Bldg. Edmonton before March 31st, 1933.

Forms may be procured from any Provincial government office or from any bank or direct from the Superintendent of Income Tax, Edmonton.

All persons residing, employed or carrying on business in Alberta are liable to a tax on Income subject to the exemptions provided for in the Act.

For full information re exemption and method of filing returns is contained on the forms themselves. Avoid penalty by filing now. Further information will be furnished on application to Income Tax Branch, Qu'Appelle Building, Edmonton.

HON. R. G. REID
Provincial TreasurerE. M. GUNDERSON,
Supt. of Income Tax

COMMUNICATIONS

March 4, 1933

Editor, The Chronicle.

Dear Sir:

There has been quite a bit of sickness around town for some time. It is possible, of course, that we can do nothing about it. Owing, however, to its continuance, and its nature, many suffering from sore throat—it has occurred to the writer that it may be due in part to impure or not clean drinking water.

From time to time I have heard, with misgivings, complaints about the water and other conditions up at the school. To satisfy myself that this was not all hearsay, I went up to the school one day, and saw for myself.

My impression was that the school basement, faucets, and bowls, were far from being spotless, and I am sure they would not have received favorable comment if inspected that day.

I do not mean to be harsh, but children's health is the nation's health, and is of vital importance.

The time for spring cleaning is not far off, both in home and school, and I would suggest that if cleaning up and brightening the school be too much for one man, he be given help once a month or once a quarter, as necessary.

The extra cost of doing this would be well repaid, I am sure. In times like these, we are apt to cut down expenses to the very minimum, but this should not be done at the expense of the children's health.

On the water question, I think it would be fair to all parents to have, through the press, a report on the drinking water at the school, after an analysis is made by a person authorized to do so by the Department of Education.

Percy C. Griffiths.

That Famous Window Stopper

Walter Major has commenced the manufacture of his patented Window Stop in Crossfield. Of all the window stoppers on the market today, Mr. Major's is easily the best—it works to perfection.

The patent can be attached to either side of the sash, then all you have to do is raise the window to the height desired, and it will automatically lock and hold. It also works on the top sash.

Make no mistake about it, Mr. Major has a real valuable article, but it takes a lot of advertising and demonstrating to market anything in a big way, and right here is the one place where Mr. Major will fall down as flat as pancake.

KICK IN

Will the party who took the carpenters saw by mistake from the U. F. A. hall after the Old-Timers Round Up, please return same to the Chronicle office.

NOTICE

I beg to announce that Walter Hurt has taken over the Cockshutt Implement Agency.

Twenty-five Years Ago

(Crossfield Chronicle, March 4, 1908)

A lengthy article copied from the Albertan entitled "A Thriving Alberta Town." Mentions the thriving Board of Trade and the work they are doing. Dr. G. A. Bishop, President, D. A. McGrimmon, Vice-Pres., Jas. Cameron, Sec-Treas. Also mentions activities of the Village Council and what improvements they are making. Mentions activities of the different Churches and an outline of business.

Report of organization of Farmers Association at Aldrie, E. J. Clayton, President, Wm. McKenzie, Vice-Pres., W. H. Dunford, Sec-Treas.

Jack McLaren as manager of the Crossfield Baseball Club received a letter from Aldrie Club suggesting a league consisting of Aldrie, Crossfield, Carstairs, and Didsbury.

Wedding Announcement: March 3rd, Miss Ruth O'Leary to Mr. Roy Armit at the home of the bride's father west of town.

T. Thompson of the Becker farm started deeding last Monday, March 2nd. Debated by the Rodney Literary Society. Subject—"Resolved that there is more pleasure in pursuit than possession."

Methodist Ladies Aid Concert. Among those participating: Mrs. Johnson, Misses Dill, Wilson, L. Colling, E. Colling, Schooley, Messrs Thomas, Pattinson and O'Leary.

A letter from T. Fitzgerald, Spokane, Wash., commenting on matters mentioned in this paper along legislative lines. Fred McLean's auction sale exceeded expectations. J. McCool, auctioneer.

HERE AND THERE

Adam Cruickshank has completed several hand paintings lately and is sure to throw a mean brush. Drop in and take a look at the elk he has hanging in the rounda and you will wonder why he stays with the hotel business.

Those Tredaways is a busy man these days taking entries for the annual community sale, which is to be held on Thursday, March 14. Present indications are that the sale will be bigger than ever.

Remember the Dance in East Community Hall on Friday night of this week. Clarence Foss and his Calgarians will furnish the music, and we are told they can really turn on.

On Friday next March 10th, the Calgary City Pipe Band are going to give a Concert and Dance in the Beaver Dam Hall. A grand concert, featuring Cathie Kemp, Canada's premier Scottish dancer, followed by a dance with a good orchestra who can chisel out jazz and old time favorites, all this and your supper tossed in for 30c.

You can't beat it, that's all. Did you hear Grace Field sing, "Stop and Shop at the Co-op Shop" over C.F.C.?

A? The program is called Kevedeville, a new term to us. Old country people, particularly, like this humor. It recalls that tongue twister "Which switch, is the switch, Miss, for Ipswich? It's the Ipswich switch which I require." This excellent feature is announced for 8.30 p.m. Tuesdays and Thursdays.

School Entertainment March 31. The Crossfield and District School Fair Association will sponsor a grand entertainment in the U. F. A. hall on March 31st.

The program will be put on by the different schools of the district, taking the best parts from the Christmas tree concert and making a grand entertainment. Proceeds in aid of the School Fair. Popular prices.

The best of men in this country today are the returned soldiers who are drawing down good pensions, and holding down jobs at the same time, while many of their comrades walk the streets looking for work—peniless and forgotten.

Local News

Evert and Orvit Bills were business visitors in Calgary on Monday.

Mrs. Fred Stevens was a visitor in Calgary on Tuesday.

Mr. and Mrs. N. A. Johnson and family spent Sunday with relatives in Calgary.

R. M. McCool, M.L.A. who is attending the session of the Legislature in Edmonton, spent the week end at home.

Mrs. H. R. Fitzpatrick who has been visiting her parents in Ontario is expected home this week-end.

The regular monthly meeting of the Crossfield District U.F.A. was held on Saturday.

Matt and Sam Dunsmore have rented the McNichol section near Crossfield.

Mrs. Syd Willis met with an accident on Saturday when she slipped on some ice in the yard, falling and spraining her leg.

Ed. Tidball has disposed of his interest in the general store at Madden to his brother Tom. Ed. has gone back to his farm west of Carstairs.

Geo. Leask, John Jacks and Chas. McKenzie were delayed for some time on Tuesday when driving in from the west their truck sid into the ditch.

The Crossfield Legion are holding a Court Whist Drive in the dining room of the Oliver Hotel on Wed., March 22nd. Keep the date in mind.

The auction sale of the entire farm equipment of Robert Brown's held on Wednesday was well attended and surprisingly good prices prevailed.

H. N. Blaine who has been farming a half section owned by the McNichol estate, north of Madden, has left for Athabasca, where he has taken-up land.

D. J. Hall came up from Calgary on Saturday to spend the week-end with his family. Dong is undergoing treatment at the Belcher hospital for ulcers of the stomach.

A. E. Tidball has taken over the management of the Tidball store at Bowden. Lt. Col. W. E. Tidball who has been running the store at Bowden, is now residing at his home in Carstairs.

Adolph Hinkle who has been farming in the Carstairs district, has rented the A. A. Hall place and is moving on this week.

We join in extending birthday greetings to our fellow townsmen, Adam Cruickshank, Lloyd McRory and Alfred Stevens, whose birthdays fell on Wednesday of this week.

A congregational meeting of the United Church will be held in the church on Monday evening March 13th at 8 o'clock. All members and adherents kindly be present.

Mr. and Mrs. Weston U. Toothaker of Pleasant Island Camps, Rangely Lakes, Maine, were weekend guests of Mr. and Mrs. A. A. Hall. Mr. and Mrs. Toothaker are en route to Southern California to spend the remainder of the winter before opening up their camps in the spring.

I SAW

Frank Rudy and Bud Fraser playing several games of crib. . . Dr. Whillans, Chris. Asmusen, Ed. Meyers and Carl Becker playing sixty-six. . . Fred Pient receiving the congratulations of his many friends on his marriage—which has not taken place yet. . . Raymond Gilchrist reading an article by Miss Agnes Mc(Pail). . . Len Pullan selling raffle tickets on a quilt in an endeavor to raise enough money to get the hockey club out of the hole. . . Archie McFadyen explaining why the Chicago Black Hawks are not in the play-offs. . . Len Christmas unpacking a large shipment of fresh fish for the Lenten season. . . Hall McCaskill driving the lady curlers to Calgary. . . Lloyd McRory opening up at 8 a.m. Monday. . . Leslie Spivey on his weekly jaunt to Calgary. . . Wm. Blackadder telling why he has no use for the C.C.F. . . Henry Johnson out among the cows and chickens. . . Louie Becker trying to play an out turn in. . . Joe Gilchrist, curling again and going strong. . . George Lem losing a bet on the Calgary Bronks.
